

UNITED STATES DISTRICT COURT  
DISTRICT OF SOUTH DAKOTA  
SOUTHERN DIVISION

**FILED**

Feb 20 2019

*Matthew Thelen*  
CLERK

UNITED STATES OF AMERICA,

CR 4:19-cr-40021

Plaintiff,

REDACTED INDICTMENT

vs.

Distribution of a Controlled  
Substance Resulting in Death

MARC WOODLEY HENRISSE,

21 U.S.C. § 841(a)(1)

Defendant.

The Grand Jury charges:

On or about June 21, 2018, in the District of South Dakota, Marc Woodley Henrisse did knowingly and intentionally distribute cocaine and fentanyl, Schedule II controlled substances, and the distribution of said cocaine and fentanyl resulted in the death of Victim #1, whose identity is known to the Grand Jury, in violation of 21 U.S.C. § 841(a)(1).

MARC WOODLEY HENRISSE,  
Defendant.

Cr. 02CRI18-281  
AFFIDAVIT IN SUPPORT  
OF ARREST WARRANT

STATE OF SOUTH DAKOTA )  
 ) SS  
COUNTY OF BEADLE

Brandon Neitzert, Agent, Division of Criminal Investigation, being first duly sworn upon oath, deposes and says:

On Friday June 22<sup>nd</sup> 2018 [REDACTED] DOB: [REDACTED] was found deceased on the bathroom floor of her residence located at [REDACTED] in Yale, Beadle County, South Dakota. Beadle County Deputy Sheriff Chris Olerud arrived on scene and learned that [REDACTED] juvenile sons ages 4 and 6 had alerted a neighbor that their mother was not breathing and had been in the same position since an unknown black male, they identified as "the black man," had left the residence the night before.

DCI Agents executed a search warrant on the residence and body of [REDACTED] later the same day. Agents learned at this time [REDACTED] cellular phone had been removed from the residence. A ping trace on the device by the wireless carrier showed it was in Huron, a distance of 16 miles from [REDACTED] residence, and had last communicated with a tower in at 01:24 AM on June 22<sup>nd</sup>.

An autopsy conducted on June 25th concluded [REDACTED] died of fentanyl toxicity with cocaine being a contributing factor, as well as supratherapeutic levels of Alprazolam (Xanax) in her system. A recent intravenous injection site was found on [REDACTED] right arm.

[REDACTED] juvenile sons, [REDACTED] age 4, and [REDACTED] age 6, were able to positively identify "the black man" from photographs associated with [REDACTED] Facebook account. I filed preservation requests with Facebook for records pertaining to [REDACTED] account, and the account associated with username "BiGgz Getitbyany

Means" from which the photograph originated. Additionally, from this photograph I was able to positively identify the male as Marc Woodley Henrisse.

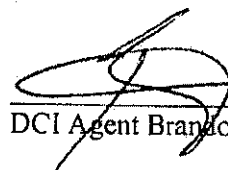

On June 26<sup>th</sup> I met with Henrisse at the Huron Police Department for an interview. Henrisse admitted to meeting [REDACTED] at her residence in Yale, SD on June 22<sup>nd</sup> for the purpose of purchasing some of her prescription Alprazolam medication. Henrisse admitted to taking some of the medication along with [REDACTED] while at the residence. Henrisse admitted to watching the bathroom door to keep [REDACTED] children out while [REDACTED] used intravenous narcotics. Henrisse admitted to knowing [REDACTED] had overdosed on the narcotics and explained several measures he took to try to keep her awake and alert to include the use of ice to attempt to shock her system.

Henrisse stated his ride showed up to pick him up and he left the residence, leaving [REDACTED] juvenile children alone with [REDACTED] in an unknown condition, but indicated she was still alert upon his departure. Henrisse stated that they stopped at Domino's Pizza in Huron and ordered a carryout pizza upon their return to Huron. Domino's surveillance video confirms a carryout order was placed at 12:52 AM and employees reported witnessing a silver Dodge Durango in the parking lot matching the description of the rental vehicle Henrisse confirmed he had been picked up in at [REDACTED] residence.

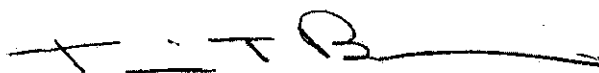

Search warrants for cellular phone record data for both Henrisse and [REDACTED] provided location information for both devices placing them within proximity of each other on the 22<sup>nd</sup> of June. Matching Facebook records for both the accounts of [REDACTED] and Marc Henrisse detailed a text conversation between Henrisse and [REDACTED] beginning on June 20, and continuing on June 21, discussing "wanting to get high" and "intravenous" drug use. The conversation alludes to the distribution of drugs ("goodies," "Coca-Cola," "glass") and outlines a plan for Henrisse to travel to Yale to meet [REDACTED] with the drugs.

Based on the above facts and circumstances probable cause exists to show Marc Woodley Henrisse, without any design to effect death, contributed to the death of [REDACTED] while engaged in the commission of a felony.

Dated this 26th day of July, 2018.
